Dear Hydrogen Technology Enthusiasts,

We are pleased to invite you to the **2nd International Conference H2PPM 2026**, which will take place in the TechTower innovation hub in Pilsen, Czech Republic. Building on the success of the inaugural edition, H2PPM 2026 continues to serve as a platform connecting research, industry, and public stakeholders across the entire hydrogen value chain. The conference will provide an opportunity to present the latest scientific findings, share practical experiences, and discuss the future direction of hydrogen technologies in Europe and beyond.

The conference programme will feature

- **Scientific, technical, and application-oriented presentations and poster sessions** covering current research, development, and industrial applications of hydrogen technologies.
- **Materials challenges in the hydrogen economy**, including corrosion, material degradation, hydrogen storage, and transportation.
- **A panel discussion with leading experts** focusing on the technological, legislative, economic, and societal readiness for wider hydrogen adoption.
- **Networking opportunities** fostering collaboration among research organisations, industrial partners, start-ups, policymakers, and other stakeholders.

We warmly welcome researchers, students, industry representatives, public authorities, and all professionals interested in hydrogen technologies. Whether you wish to present your latest results, discuss current challenges, explore new opportunities, or simply gain inspiration from experts across the field, H2PPM 2026 will offer a unique opportunity to engage with the hydrogen community.

Join "Hydrogen - Power, Production, and Materials 2026" to contribute to the future of hydrogen in the global energy transition!

Language: English

Registration deadline Octorber 31, 2026

H2PPM 2026

Speakers

Petr Mervart
Plenipotentiary of the Minister of Industry and Trade for Hydrogen Technologies at Ministry of Industry and Trade of the Czech Republic, CZ

Frederic Wewetzer
HZwo e. V., DE

Aleš Doucek
HYTEP, CZ and ÚJV Řež, CZ

Tomáš Prošek
University of Chemistry and Technology Prague, CZ

Alexandr Lužný
GasNet, s.r.o., CZ

Bernd Schrittesser
SCIOFLEX Hydrogen GmbH, A

Presentations abstract and other invited speakers can be found on the workshop website

Preliminary program

Tuesday, December 1

10:00-11:00	Registration of participants
11:00-17:00	Conference + Poster Section
17:00	H2PPM Get-Together

Wednesday, December 2

8:00-9:00	Registration of participants
9:00-16:30	Conference + Workshop
17:30	Pilsen Historical Underground Tour
19:30	Conference dinner

Thursday, December 3

9:00-10:30	Presentation of Project Hydro-NiCE
11:00-13:00	Panel session: From Hydrogen Strategies to Real-World Deployment

Poster presentation

The poster presentation is possible within the first day of the conference.

Funded by the European Union
NextGenerationEU
